

AgriNode User Guide | Demo Edition 2026

Login Instructions

1. Open login page and choose language \EN/Hi/KN\.
 2. Select role: Farmer, Agent, or Admin.
 3. Use password mode or OTP mode and submit credentials.
 4. On success, user is redirected to role-specific dashboard.
-

Dashboard Usage

- Review KPIs for farmers, crops, finance, and system status.
 - Use quick links for schemes, loans, APMC, and support.
 - Access reports and downloads from the Downloads Center.
-

Farmer Workflow

- Update profile and KYC documents.
 - Track crop progress and expected harvest timeline.
 - Review income/expense records and export farmer reports.
 - Raise support tickets and monitor resolution status.
-

Agent Workflow

- Onboard farmers and verify submitted details.
 - Manage marketplace listings and buyer interactions.
 - Track payments and export records for field follow-up.
 - Support scheme enrollment and loan requests.
-

Admin Workflow

- Approve/reject users and monitor compliance status.
 - Review audits, complaints, and operational metrics.
 - Export annual, village analytics, and CSV data reports.
 - Maintain platform health and service standards.
